TABLE OF CONTENTS

Publication Number: **EM 1110-2-4000**
Title: **Engineering and Design - Sedimentation Investigations of Rivers and Reservoirs**
Proponent: **CECW-EH-Y**
Publication Date: **Original document - 15 December 1989. Change 1 - 31 October 1995.**
Distribution Restriction Statement: **Approved for public release; distribution is unlimited.**
File Format: **Adobe Acrobat.pdf.** Adobe Acrobat Reader software is required to read portable document files (pdf). Click Viewers to access free Adobe Acrobat Reader software and follow installation instructions or go directly to the Adobe homepage at http://www.adobe.com.
File Size: Files of 1 MB or larger have had their file size noted.

Basic document (This file contains all elements of the document exclusive of appendices. File incorporates changes made 31 October 1995.File size: 6.9 MB.)
Changes (Outline of changes made to original document.)
Transmittal Letter
Table of Contents
Chapter 1 - Introduction
Chapter 2 - Formulation and Planning of Sediment Studies
Chapter 3 - Sediment Yield (File size: 1.6 MB.)
Chapter 4 - River Sedimentation (File size: 1.9 MB.)
Chapter 5 - Reservoir Sedimentation (File size: 1.1 MB.)
Chapter 6 - Model Studies
Chapter 7 - Sediment Properties
Chapter 8 - Sediment Measurement Techniques
Chapter 9 - Sediment Transport Mechanics
Chapter 10 - Nonequilibrium Sediment Transport
Appendix A - Bibliography
Appendix B - Sedimentation Glossary of Terms
Appendix C - Corps of Engineers Methods for Predicting Sediment yields, 1973
Appendix D - Qualitative Analysis of General River Response to Change
Appendix E - Field Reconnaissance Procedure for Sediment Studies
Appendix F - Trap Efficiency of Reservoirs
Appendix G - Specific Weight of Deposits
Appendix H - Methods for Estimating the Distribution of Sediment Deposits in Reservoirs (File size: 1 MB.)
Appendix I - Reservoir Capacity and Storage Depletion Computations
Appendix J - Degradation of the Channel Downstream from a Dam
Appendix K - Reservoir Sedimentation Investigation Program (File size: 1.3 MB.)
Appendix L - Instructions for Compilation of Reservoir Sedimentation Data Summary
Entire - Because of its size, this file was not posted here.
